

10/8/12

Dear Judge Chapman-

My name is Jennifer Scott. I am writing to you in behalf of my husband George + myself. George retired under the coal act. We are supposed to have 100% coverage after we have met our small deductibles.

He worked 38 years in the mines. He got credit for 30. Couldn't find men to sign off on the other 8 years.

George is 81 now. He has diabetes - 4 shots a day, HBP, dementia - he takes arcept 23 + Namenda. It was like pulling teeth to get them to pay for the arcept 23. He has taken the Exelon patch + it quit working, when that happened he couldn't find the bathrooms in the house + didn't know what a phone was. He has Hyperlipidemia + a lot of stuff. I take sole care of him. This means I can not go out

and get a job. He has a shot before breakfast, before lunch, & before dinner & 1 at night. He is not able to do this. He can not dial a phone or even change the channel by remote.

He has worked hard in his life & it is not fair to put us through this aggravation of worrying if we are going to have health care coverage! I can not buy our medications with what he draws.

There is thousands of miners in the same situation, we are Gen! I was taught you dont buy anything that you can not pay for! Maybe the parents of the head of patriot needed to teach him that! But I dont think we should be punished for his poor business practices!

Please let God help you in your decision!

Thank you -

Jennifer Scott - ph. 304-524-2416
